## 3. Qualifiers

### 3.1 Format Overview

The gamemode being played is osu!taiko, all matches will be played using scorev2.

During the qualifier each participant will be given two attempts to set a high score on each map of the map pool. These attempts will be in lobbies scheduled during the weekend of July 14th to July 20th.

The map pool consists of:

- 3 maps played using no mod
- 2 maps played using "Hidden"
- 2 maps played using "Hard Rock"
- 2 maps played using "Double Time"
- 1 map played as a "Free Mod" pick
- The Free Mod pick is a map requiring players to pick either Hidden, Hard Rock, or use both mods at once. Not using any mod is not allowed on these picks.

The higher score of the two attempts on each map will be used to determine the seeding

The method used to determine seeding overall is the average placement of a player per map. Page 5

The top 8 players will advance to the finals.

### 3.2 Match Procedure

The matches will start once the scheduled time is reached and a referee is present.

There will be no warm ups during the match. The maps will be played in the order listed in the "Format Overview" section.

A short break is given between each map, the exact duration is at the discretion of the referee.

Rounds with disconnects within 30 seconds or 25% of the beatmap length, whichever happens first, can be replayed, at the discretion of the referee, as long as the problem was clearly communicated in time.

## 4. Finals

### 4. Format Overview

The gamemode being played is osu!taiko, all matches will be played using scorev2.

The finals consist of a single elimination bracket, with an additional match deciding the third place. All matches will be direct 1v1 best of 9 matches, except for the Finals and the match for third place, which will be a best of 13.

- The map pool consists of:
- 6 maps played using no mod
  - 2 maps played using "Hidden"
  - 2 maps played using "Hard Rock"
  - 2 maps played using "Double Time"
  - 3 maps played as a "Free Mod" pick
  - 1 map used to break ties.

Free Mod picks are maps requiring players to pick either Hidden, Hard Rock, or use both mods at once, as players see fit. Not using any mod is not allowed on these picks.

### 4.2 Match Procedure

#### 4.2.1 Before the Match

Matches are scheduled beforehand. The schedule can not be changed. If a player cannot participate at the scheduled time the match will be forfeited and the other player handed a default win. Any changes to the schedule will be announced in due time.

Participants may recheck and reconfigure their setup up to 15 minutes before the scheduled match time.

#### **4.2.2 During the Match**

Once both players and a referee join the match the match, both players will begin by rolling either using a physical method or the !roll command.

The loser of the roll will then be able to ban a map from the map pool, followed by the winner of the roll doing the same. There will be one ban per player during the entire tournament. Then the winner of the roll makes their first pick, followed by the loser of the roll doing the same.

The players then alternate picking the map. If a score of four to four is reached the tie breaker will automatically be picked.

Between each map there is a short break of 120 seconds during which the next map must be picked. If a player does not pick a map during that timespan, the referee will pick a random map from the mappool using !roll X, where X is the number of beatmaps that were neither picked nor banned, excluding the tiebreaker.

Once any player reaches 5 map wins the match is over and the winner advances to the next match.

Rounds with disconnects within 30 seconds or 25% of the beatmap length, whichever happens first, can be replayed, at the discretion of the referee, as long as the problem was clearly communicated in time.

Should a map end in a draw the beatmap will be replayed, before moving on to the next pick.
